EDUCATION

Florida Gulf Coast University

Bachelor of Science in Software Engineering

Fort Myers, FL

Graduation: May 2027

- Relevant Courses: Requirements Engr. & Analysis, Computer Security, Software Testing, Data Engineering

PROJECTS

ACE.AI Mock Interview Platform (Eagle Hacks)

March 2026

- Built a real-time mock interview platform with voice AI interactions including behavioral and technical interviews.
- Led backend development using Node.js/Express, JWT, and PostgreSQL for secure session management.
- Implemented voice integration with Vapi, enabling low-latency speech input/output and conversational flow.
- Worked as a team to deliver a working product in 36 hours, earning 3rd place and a company challenge win.

Zonta Club of Naples Website

December 2025

- Designed and built a full-stack membership management system for a nonprofit organization.
- Translated functional requirements to system features: payment processing, content management, workflows.
- Developed a Next.js/TypeScript frontend with Node.js/Express, REST APIs for Stripe, Sanity, and CMS data.
- Deployed on Vercel and Render; wrote end-to-end tests to validate production functionality and reliability.

Portfolio Website

March 2026

- Built a personal portfolio using React, TypeScript, and Tailwind to showcase projects, and technical experience.
- Structured reusable React components with a scalable codebase architecture for long-term maintainability.
- Wrote automated unit tests with Vitest to validate component behavior and ensure reliability in the codebase.

EXPERIENCE

FGCU – Computing & Software Engineering Department

Fort Myers, FL

Autonomous Driving Research Assistant

March 2026 – Present

- Installed Ubuntu 22.04 and ROS Humble to build a development environment for autonomous driving research.
- Deployed a Livox MID-360 LiDAR sensor by configuring ROS drivers and integrating the pipeline into Autoware.
- Assembled hardware infrastructure including a network switch, battery, can cabling for live LiDAR operation.

FGCU – Center for Academic Achievement

Fort Myers, FL

Student Leader

April 2024 – Present

- Support students in Calculus III, Linear Algebra, Mathematical Foundations, and Differential Equations.
- Communicated complex concepts clearly to diverse student learners, reinforcing problem-solving skills.
- Collaborated with student leaders, CAA staff, and campus partners to strengthen tutoring and student success.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, SQL, HTML, CSS, Java, C++

Frameworks & Libraries: Next.js, React, Node.js, Express, Tailwind, Selenium, Vitest, Junit, Maven, TestNG

Tools & Platforms: Git, PostgreSQL, Vite, Sanity CMS, Vapi, Stripe API, VS Code

CAMPUS INVOLVEMENT

Computer Science & Software Engineering Club – President

August 2026 – Present

Hackathon Participant – Eagle Hacks (FGCU)

March 2025, March 2026

Whitaker College of Engineering – WCE Ambassador

Fall 2026 - Present

FGCU Industry Advisory Board – Student Representative

Spring 2026 – Present

CERTIFICATIONS

- **Securing Projects with OpenSSF Scorecard (LFEL1006)** – The Linux Foundation (March 2025)
- **Scientific Computing with Python** – freeCodeCamp (April 2023)
